

MetaVista Consulting Group

Careers at MetaVista®

Our exceptional consultants are the most critical part of our success. We work with high-performing, skilled individuals who are dedicated to our industry.

MetaVista is growing.

MetaVista is an established and growing company interested in you! We are interested in hearing from highly qualified Project and Program Managers, Business Analysts, and technical professionals with experience in software development, Independent Verification and Validation (IV&V), IT security, networking technologies, and data center skills. A Project Management Professional (PMP) certification is mandatory for Project Managers. State of California experience is highly desirable.

Solid Track Record

MetaVista has a proven track record of managing projects that are mission-critical, technically complex, severely schedule constrained, and multi-vendor in nature.

For nearly 15 years, our consultants have helped our clients achieve their business goals by assisting them in planning and executing their most complex and critical projects.

We are proud of our business history with our consultants, partners, and clients. We continue to uphold the high standards we have established and applied throughout our contracting enterprises.

MetaVista has achieved high-level success by proficiently employing best practices throughout all of our projects.

Professional Education

We recognize that our consultants are key to our competitive advantage and continued growth. MetaVista will reimburse ongoing continuing educational expenses and membership in professional industry organizations as part of each employee's Professional Development Plan.
